

Stats, Graphs, and Data Science ¹

Evidence-Based Valuation[®] – *the new valuation modeling paradigm*

2-day *hands-on* actionable education
George Dell, MAI, SRA, ASA, CDEI, CRE

Hosted by: **South Carolina
Professional Appraisers Coalition**
(annual conference)

“Cuts through all the regression hype!”

“Best class I have ever taken”

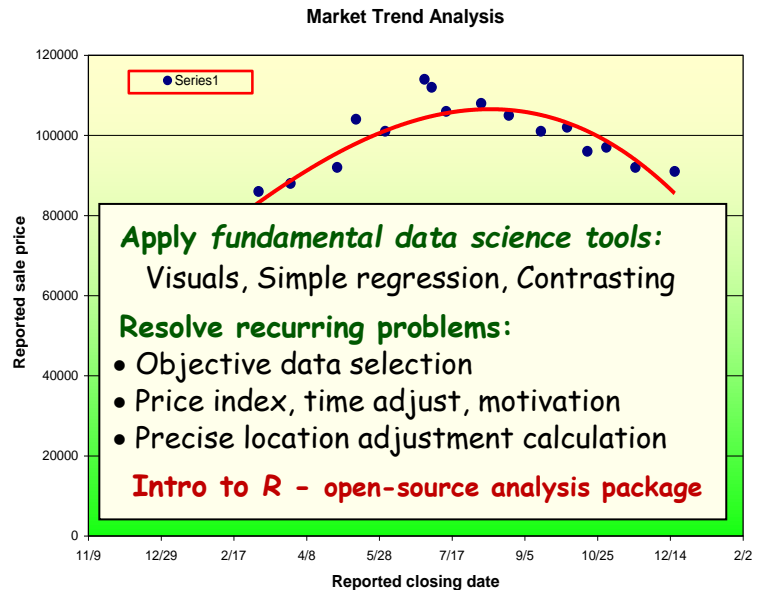

“Fast-moving and fun”

“Quality and speed do go together!”

“Clears up popular misinformation!”

Deal with the problems and limitations of
canned ‘regression’ appraisal software.

This is “do-it-yourself” analysis!

General, Residential, Ag. & Litigation applications.

Prepare for opportunities in a *big data* world.

Speed and bulletproof your work:

1. Precisely delineate the **market** segment data set;
2. Visualize, calculate, and estimate **adjustments** with *three types* of data science adjustment methods.

14 hours approved in S. Carolina
and most surrounding states.

March 2 – 3 (Sat. - Sun.)

Setup 8:00 am, Class to 4:30

(SCPAC conf. starts Thur. Feb 27)

Eliminate data selection issues. Visualize and identify the competitive market segment.
Stop reviewer subjectivity. Tools, models, and software you can use *now*.

Laptop required (with a Keyboard and mouse. Bring extension cord. Desktop OK).

Provided: reference workbook, case examples, Gnumeric spreadsheet-graphics software.
'R', and RStudio - a *real* analytics package and system (**open source**) is introduced.

	To Feb 22	After Feb 22
Enroll now!
